

My Sample PDF

Created with Python & ReportLab

Introduction

This is a demonstration PDF document generated programmatically. It shows how text, headings, and data tables can be combined into a clean, professional-looking report.

Sample Data Table

Item	Quantity	Unit Price	Total
Apples	10	\$1.20	\$12.00
Bananas	15	\$0.80	\$12.00
Oranges	8	\$1.50	\$12.00
Grapes	5	\$2.99	\$14.95

Conclusion

Thank you for viewing this PDF generated from a script. This file was created entirely in code without any word processor!
